

MOTION BY MAYOR MICHAEL D. ANTONOVICH

MAY 17, 2011

Airport Land Use Commissions have been established for all counties with public use airports within the state of California. The purpose of airport land use commissions is to protect the health, safety and welfare of the public by ensuring the orderly expansion of airports and the adoption of land use measures that minimize the public's exposure to impacts associated with airport operations. One of the powers and duties of an airport land use commission includes preparing and adopting airport land use compatibility plans for the communities surrounding public use airports.

In Los Angeles County, the Regional Planning Commission serves as the Airport Land Use Commission. The California Department of Transportation is making available an Acquisition and Development grant to the Los Angeles County Airport Land Use Commission to prepare an airport land use compatibility plan for the area surrounding Brackett Field Airport. Thoughtful airport land use compatibility planning in this area will result in land use policies and regulations which reduce the public's exposure to safety hazards and aircraft noise, provide for safer operation of aircraft, and help protect the airport from encroachment of incompatible land uses.

I, THEREFORE, MOVE that the County Board of Supervisors direct and authorize the Director of the Los Angeles County Regional Planning Department to take all appropriate action to apply to the California Department of Transportation for an Acquisition and Development grant to develop an airport land use compatibility plan for Brackett Field Airport and that the Board approve the attached resolution authorizing application for said grant.
